🔗 Portfolio

Profile Summary

Frontend Developer with practical experience in HTML5, CSS3, JavaScript (ES6), React.js, REST API integration, responsive web design, and Git. Passionate about developing high-performance, user-friendly web applications with clean and maintainable code.

Skills

Frontend Development

React.js, Next.js, Responsive Web Design, DOM Manipulation, Component-Based Architecture

Styling

Tailwind CSS, CSS Flexbox, CSS Grid

Backend Developer

Node.js

MS Office / Google Tools

MS Excel, MS Word, MS PowerPoint, MS Outlook, Google Sheets, Google Forms

Programming Language

JavaScript (ES6), TypeScript, HTML5, CSS3

API & Web Technologies

REST API Integration, Fetch API, Local Storage, JSON

Database

MongoDB (Basic)

Tools

Visual Studio Code (VS Code), Git, GitHub, Chrome DevTools

Projects

Anime Streaming Web Application

- Developed a fully responsive Anime Streaming Web Application using the Jikan REST API.
- Implemented real-time API integration to display anime listings, ratings, episode details, and watch information.
- Built reusable UI components and dynamic pages for improved scalability and maintainability.
- Developed a pagination system for seamless content browsing.
- Implemented LocalStorage to manage user preferences and watch history.
- Designed responsive layouts using CSS Flexbox and Grid for desktop, tablet, and mobile devices.
- Added loading indicators and error handling to enhance user experience

FloraVision Plant WebsiteApplication Website

- Developed a responsive plant e-commerce landing page using HTML5, CSS3, and JavaScript (ES6), ensuring cross-browser compatibility and mobile responsiveness.
- Designed and implemented responsive navigation, dropdown menus, interactive product cards, and an image carousel to improve user engagement.
- Built a modern UI using Glassmorphism design principles, enhancing visual appeal and user experience.
- Utilized JavaScript for DOM manipulation, event handling, and interactive user interface components.
- Optimized website layout and performance for desktop, tablet, and mobile devices through responsive design techniques.
- Structured and maintained clean, reusable, and scalable front-end code following web development best practices.application.

Snake Game Pro

- Developed a responsive Snake Game using HTML5, CSS3, and JavaScript (ES6) with optimized game logic and smooth user interaction.
- Implemented core game mechanics including collision detection, score calculation, random food generation, and level progression.
- Built a persistent high-score system using the Local Storage API to retain user data across browser sessions.

- Integrated keyboard controls, pause/resume, restart functionality, sound effects, and game-over handling to enhance user experience.
- Designed a mobile-friendly, responsive interface compatible with multiple screen sizes and devices.
- Applied DOM manipulation, event handling, and modular JavaScript for clean, maintainable, and scalable code.
- Managed source code using Git and GitHub following version control best practices..

Education

Bachelor's Degree In Computer Science , <i>Gurukul Institute of Engineering & Technology</i> CGPA - 8.2	08/2022 – 05/2026 Kota, Rajasthan
Senior's School , <i>Govt Sr. Sec. School</i> Percentage - 59	04/2021 – 03/2022 Kota, Rajasthan
Secondary School , <i>Aklank Sr. Sec. School</i> Percentage - 56	04/2019 – 03/2020 Kota, Rajasthan

Interests

- Cricket
- Gaming
- Travelling

Soft Skills

- Time management
 - Quick Learner
 - Problem Solving
- Attention to details
 - Multi-Tasking
 - Good Communication
